

## **Fancy Fleece™ Wavy Weave Pillow**

### **Materials:**

One 14" Pillow Form  
1/2 yd. main fleece fabric  
16" square contrasting fleece fabric  
Thread to match  
June Tailor Fancy Fleece ruler  
Rotary cutter  
Rotary cutting mat

### **Instructions:**

Cut two 16" squares of main color fleece fabric. Set one piece aside for the pillow back.

Using the wavy edge of the Fancy Fleece™ ruler, cut 2" wide wavy strips from the 16" piece of main color fleece fabric and contrasting fleece fabric.

Weave strips to create a "checkerboard" pattern pillow front, pinning at all outside edges to hold in place. Weave tightly that there is no space between strips. Baste stitch woven pillow front, 1/4" in edge.

With right sides together, place fleece for pillow back on woven pillow front. Pin to hold in place.

Using a 1/2" seam allowance, stitch sides of pillow leaving a 12" opening on bottom side.

Press seams open using a pressing cloth to protect surface of fleece.

Turn pillow right side out and place pillow form in pillow.

Hand stitch the pillow opening closed.

Crafting time: 1.5 hours

Skill level: Easy, basic sewing
