# *Sew-In Computer Printer Fabric™ Sheets Instructions*

- Design your image on the computer using your own photos, graphics or text.
- Set printer to normal print quality and plain paper setting.
- Load one sheet of Computer Printer Fabric™ into ink jet printer so image will print on fabric side of sheet.
- Print image.
- Allow ink to dry at least 10 minutes.
- Remove paper backing.
- Press with a DRY iron, high heat for 1 to 2 minutes to set ink.
- Trim, if necessary, and sew into your project.

Note: Fusible may be applied to the back of Computer Printer Fabric™ after paper backing is removed. Fabric image can then be fused onto your project.

**Laundering:** Dry clean only.

**Warning:** Printer ink is water-soluble. Keep printed fabric sheets away from moisture or water.

Intended for adult use only.

This product is intended for use in standard ink jet printers only. Do not use in other printers or copiers such as laser printers or any other printer/copier that applies heat, as it may damage the machine. Test the product you plan to use to determine the suitability of the product for your equipment, methods and substrate material.
