

Quick Fuse™ Fabric Sheets Instructions

Create personalized projects with Quick Fuse™ iron-on fabric sheets printed on your color ink jet printer. Cotton fabric sheets can be ironed onto virtually any surface that can accept the heat of an iron.

Instructions:

- Design your image on the computer using your own photos, graphics or text.
- Load one Quick Fuse™ Fabric Sheet into your printer, so that printing appears on the fabric side (not the fusible shiny side) of the sheet.
- Printer should be set at normal quality, plain paper setting.
- Print image.
- Allow ink to dry 1-2 minutes.
- Trim around image, if desired.
- Pre-heat iron to medium/high, high (cotton) setting, NO STEAM.
- Place image face up on project as desired. Press for 10-15 seconds making sure all areas of the sheet are thoroughly fused.

Laundering Instructions:

Quick Fuse™ Ink Jet Fabric Sheets must be fused to project before laundering. Wash by hand in cold water. If soiled, use a small amount of liquid fabric softener in water. Do not use detergent. Lay flat to dry. May be tumbled in dryer on low setting.

This product is intended for use in standard ink jet printers only. Do not use in other printers or copiers such as laser printers or any other printer/copier that applies heat, as it may damage the machine. Test the product you plan to use to determine the suitability of the product for your equipment, methods and substrate material.
