Twist 'n Stitch Instructions

Create perfect pinwheel blocks and quilts with the Twist 'n Stitch Ruler.

Pinwheel blocks can be created in five different sizes; 3-1/2", 5", 6-1/2", 8" and 10-1/2".

Determine the size pinwheel block you would like to use. Following the chart below, cut squares and border strips to sizes specified.

Helpful Hint: Tilt rotary cutter blade at a slight angle when placing into teardrop shape for easy insertion.

See detailed charts below for quilt sizes and fabric specifications.

For pinwheel blocks:

- 3-1/2" - Cut 5" squares and 3" border strips
- 5" - Cut 6-3/4" squares and 4" border strips
- 6-1/2" - Cut 8-1/2" squares and 5" border strips
- 8" - Cut 10-1/4" squares and 6" border strips
- 10-1/2" - Cut 13" squares and 8" border strips

Arrange squares as desired. Sew squares together and attach borders. (Figure 1)

Figure 1

Place the center crossed lines of the Twist 'n Stitch Ruler on the intersecting seams of the squares and borders. Using the slots of the ruler, or the outside edge for 10-1/2" blocks, cut two sides of your pinwheel block. (Figure 2) Rotate ruler, again placing the crossed lines of the ruler on the intersecting seams. Cut the other two sides of your pinwheel block. (Figure 3)

Figure 2

Figure 3

Continue cutting pinwheel blocks at all intersecting seams of squares and borders. (Figure 4)

NOTE: Keep blocks in order.

Sew pinwheel blocks in the order they were cut out, matching pinwheel centers. (Figure 5)

Figure 4

NOTES:

- Use 1/4" seam allowances throughout.
- Keep the squares that remain after cutting pinwheels for other projects.
- Squares that remain from cutting 10-1/2" blocks are large enough to cut squares for 3-1/2" blocks.
- Pinwheel blocks are bias cut. Use caution when stitching together to keep them square.
